

# Impact of AI on Education

Muhammad Owais

November 2023

## 1 Project Division

- Making scales for the provided questions
- Choosing of department
- Collecting information
- Questionnaire filling in survey
- Generating google form

## 2 Questions:

1. What is your gender?
2. Do you have any basic knowledge about AI tools?
3. Will the unemployment increase in the coming years due to AI modifications?
4. In your opinion which AI tool is mostly used for learning purposes?
5. Do you believe that AI has the potential to enhance the learning experience in education?

### 3 Department Selection:

We have selected the department of Computer Science and Computer Engg. for our survey.

#### 3.1 Reason:

The major reason of choosing this department is that Computer Science and Computer Engineering have a lot of subjects in common. They both are the building blocks of the technology and designing.

### 4 Collection of teachers information:

- As a student of Computer Science, our first source of getting internet was UET Lahore official website.
- Our second source was prospectus. We used it for teachers' designation and education.
- After this, we verified these details from our colleague students.

### 5 Making Google Form:

- As we haven't did any survey so we didn't know how to create google forms.

- We learn it by using youtube tutorials and some websites.
- Online Forms by Google - Create Custom Forms With Ease - google.com.
  1. <https://support.google.com/docs/answer/6281888?co...Platform>
  2. <https://www.google.com/forms/about>
  3. After that we create our own google survey form
  4. <https://docs.google.com/forms/d/e/1FAIpQLScWJrodpoOoH1Iq3GkOXG4ebmtwy46SVgSqxTvoN-wbqHL9sg/formResponse>

## 6 Data Approach:

- We use email, as it is used in google form for the validation of data.
- We put forward the gender option for the specification of male and female faculty in our survey.
- Designation represents the type of people we are collecting from i.e. chairman, assistant professor, lecturer.
- Qualification represents the education level of the people we are collecting data from.

## 7 Consultation with seniors:

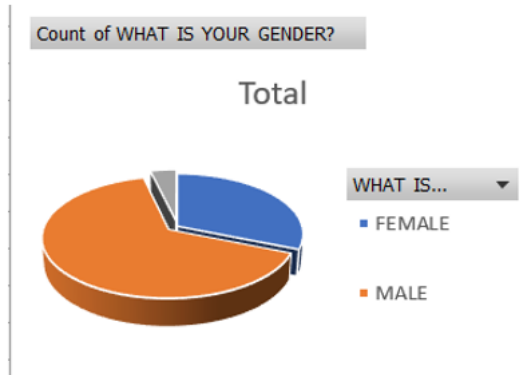

Here we want to mention some of our seniors and we are very thankful to them for our guidance. They give us very useful and innovative ideas. Some useful tips for presentation.

- Zainab 2021-CS
- Javeria 2022-CS
- Bilal Bin Zahid 2021-CS
- Haider Ali 2022-CS

## 8 Data Analysis By Using MS Excel Report:

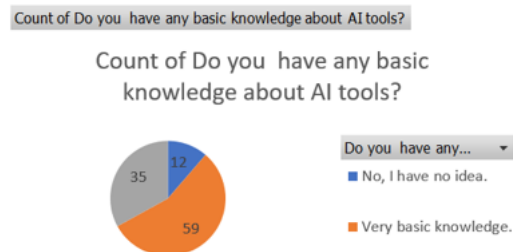

### 8.1 Gender

- Male
- Female
- Prefer not to say

## 8.2 Knowledge about basics of AI:

- Taught growing up
- Very basic knowledge
- No idea

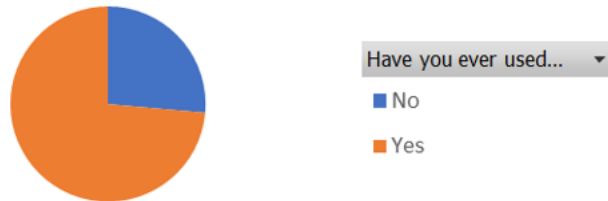

## 8.3 Have you ever used any AI tools?

- Yes
- No

Count of Have you ever used any AI tools? (like chatgpt ,quillbot, bard etc)

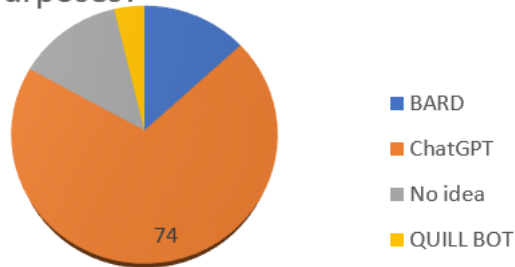

Count of Have you ever used any AI tools? (like chatgpt ,quillbot, bard etc)

#### 8.4 Will the unemployment increase in coming years due to AI modification?

- Depends on the usage of AI.
- Depends on what kind of people use it.
- I have no idea.

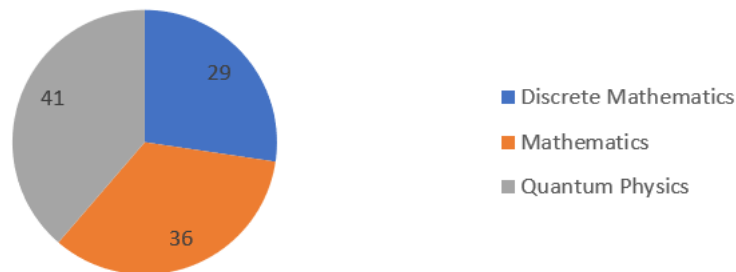

Count of In your opinion which AI tool is mostly used for learning purposes?

#### 8.5 In which subject do you think AI could be more beneficial?

- Discrete Mathematics
- Quantum Physics
- Quantum Physics

Count of In which subjects do you think AI could be most beneficial in education?

## 9 Conclusion:

We concluded that AI is helpful to a great extent, but, every thing has uses along with its abuses like it decreases the creativity of the students and it may take over a lot of jobs done by humans today
